# VT HANGER

**AMC**  
MECANOCAUCHO  
NOISE AND  
VIBRATION  
SOLUTIONS

AMC-MECANOCAUCHO® VT Hangers range is a range designed for suspension of acoustic ceilings and machinery that requires a very high isolation level.

These hangers are made of a high mechanical performance spring and incorporate a rubber bush conceived to avoid the acoustic bridges and the contact of a non aligned screw.

The metallic structure is very robust and it is supplied with an anti-corrosive zinc-plated coat.
